

## Specification Sheet (Superceded) / 01 2161 Acrylic Adhesive

### General Description

A permanent tape with a tissue carrier. The adhesive is a modified acrylic, offering good UV light and chemical resistance together with high performance over a wide temperature range. The liner is a two tier release system.

### Applications

A high performance modified acrylic adhesive makes this suitable for a wide range of general applications, particularly on uneven surfaces. Used on foams, boards and woods and also for nameplates, fascia panels and for paper splicing.
